SUBJECT INDEX

Al(100)
Sensitivity of angle resolved SIMS measurements of the O^- polar angle distribution to surface, subsurface and defect oxygen sites on Al(100) 229
Alkanes
Effects of alkyl substitution on ionization energies of alkanes and haloalkanes and on heats of formation of their molecular cations. Part 1. Simple methyl derivatives 221
Antimony
Negative thermal ionization mass spectrometry of main group elements. Part 1. 5th group: phosphorus, arsenic and antimony 75
Arsenic
Negative thermal ionization mass spectrometry of main group elements. Part 1. 5th group: phosphorus, arsenic and antimony 75

^{10}B
Isotope dilution mass spectrometry of ^{10}B and ^{6}LiF reference deposits used for the determination of the neutron lifetime 189

CuN
On the existence of novel nitrides and oxides of copper: CuN, CuO_2 and CuNO 269
CuNO
On the existence of novel nitrides and oxides of copper: CuN, CuO_2 and CuNO 269
CuO_2
On the existence of novel nitrides and oxides of copper: CuN, CuO_2 and CuNO 269

Effusion molecular beam
Calculation of the number of molecules in an electron beam crossed by a non-homogeneous effusion molecular beam 53
Electron beam
Calculation of the number of molecules in an electron beam crossed by a non-homogeneous effusion molecular beam 53
Electrospray ionisation
Development of the electrospray ionisation technique 93
Electrostatic peak switching
Comparison between the precision characteristics of the magnetic and electrostatic peak switching systems in secondary ion mass spectrometry 41
Ethane
Electron impact total ionization cross-sections for methane, ethane and propane R1
Ethanol
Concerning the thermal decomposition of protonated ethanol in a high pressure ion source and other pyrolysis reactions 241

Fluorescence
Fast atom bombardment-induced fluorescence R21

Gas inlet system
A gas inlet system for quantitative mass spectrometry 1

Haloalkanes
Effects of alkyl substitution on ionization energies of alkanes and haloalkanes and on heats of formation of their molecular cations. Part 1. Simple methyl derivatives 221

Ion–linear dipole capture
Effect of the reduced mass of the system on the rate constant for ion–linear dipole capture 23

^{6}LiF
Isotope dilution mass spectrometry of ^{10}B and ^{6}LiF reference deposits used for the determination of the neutron lifetime 189
Ligand exchange reaction
Simple ligand exchange reaction or not, that is the question. But is it also metal ion dependent? 87

Magnetic peak switching
Comparison between the precision characteristics of the magnetic and electrostatic peak switching systems in secondary ion mass spectrometry 41
Methane
Electron impact total ionization cross-sections for methane, ethane and propane R1

Neutron lifetime
Isotope dilution mass spectrometry of ^{10}B and ^{6}LiF reference deposits used for the determination of the neutron lifetime 189

O^-
Sensitivity of angle resolved SIMS measurements of the O^- polar angle distribution to surface, subsurface and defect oxygen sites on Al(100) 229

Phosphorus
Negative thermal ionization mass spectrometry of main group elements. Part 1. 5th group: phosphorus, arsenic and antimony 75
Poly(4-hydroxystyrene)
Direct emission of molecular fragments during the sputtering of poly(4-hydroxystyrene) and determination of ion structures using tandem SIMS 29
Propane
Electron impact total ionization cross-sections for methane, ethane, and propane R1

Quadrupole ion trap
Experimental study of a r.f. quadrupole ion trap supplied with a periodic impulsional potential 65
Quadrupole mass filter
Characteristics of a quadrupole mass filter in the separation mode of a few stability regions 115

Radial ion transport
Radial ion transport due to resistive-wall destabilization in Fourier transform mass spectrometry 255
Resonance effects
Resonance effects during ion injection into an ion trap mass spectrometer 199
Resonant ejection
A sensitive method for the detection of stored ions by resonant ejection using a wide band signal R11

Space charge
Simulation method for potential and charge distributions in space charge dominated ion sources 165
Stereoelectronic effects
Stereoelectronic effects in mass spectrometry 137
Stored ions
A sensitive method for the detection of stored ions by resonant ejection using a wide-band signal R11
Surface ionisation
Tube ion source for the study of chemical effects in surface ionisation 179

Tube ion source
Tube ion source for the study of chemical effects in surface ionisation 179
